

Police Motorcycle

### Police Motorcycle Problems

- Police get attacked without evidence
- Weak capability to dispatch police force and slow response to accidents
- Police abuse force to deal with accidents

### What Streamax Can Do

- Provide law enforcement evidence
- Real-time patrol route monitoring
- Improve patrol police force's dispatch to deal with accidents and alerts at the fastest speed
- Standardize police motorcycle use phenomenon to avoid illegal use and improve government public credibility

#### Rear analog camera:

- Provide evidence for accident.

#### Front Camera:

- Better image quality during the day and night
- Wide-angle for complete evidence
- Time snap and alarm snap for law enforcement evidence

#### MDVR M1- SH0401:

- With built-in 3G/4G & GPS module for real-time monitoring and location tracking
- Up to 256 GB storage capacity supports continuous recording over 1 week

#### UPS Battery:

- High performance backup solution
- Continue to record over 40 minutes when the motorcycle loses power suddenly in the accident
